PROFESSIONAL SUMMARY

Software Engineer with 3 years of experience in developing scalable applications and delivering high-quality solutions. Proficient in programming languages and frameworks, with a strong focus on enhancing user experiences and system performance.

PROFESSIONAL EXPERIENCE

Infosys, *Senior System Engineer*

2021 – present | pune, india

- Developed and maintained Java applications using Spring Boot, Hibernate, and microservices architecture, which enhanced scalability and performance.
- Created and optimized REST APIs to enable seamless integration with various front-end systems and third-party services.
- Enabled GitLab CI/CD pipelines for application deployment, resulting in a **30% reduction in deployment time** and increased efficiency in the development lifecycle.
- Coordinated multi-departmental efforts to analyze and resolve recurring issues in the project lifecycle; improved deliverable quality, achieving a **25% reduction** in post-launch defects and increasing team reliability across projects.
- Proficient in tools and technologies including Jenkins, Unix, Jira, Git, and Java to facilitate effective software deployment and management.

PROJECTS

IPL- DASHBOARD

Tech Stack: Java, React.js, Spring-Boot

- Implemented a web application utilizing Java, React.js, and Spring-Boot.
- Utilized data from Kaggle 📄 to populate and manage details such as team names, venue, date, and match outcomes (win/loss/tie).
- Developed a responsive search bar feature enabling quick retrieval of specific teams, players, or match information.
- Designed a sidebar menu facilitating the selection of different IPL seasons (2008-2020) for data visualization and analysis.

News Website

Tech Stack: JavaScript, HTML, CSS

- Implemented personalized news feed functionality allowing users to customize content based on topics, sources, and regions of interest.
- Organized news articles into categories such as politics, sports, entertainment, technology, and more for easy navigation.
- Integrated a News API 📄 to fetch real-time data and display it dynamically to users.
- Designed a user-friendly interface to enhance the browsing experience and engagement with news content.

SKILLS

Languages: Java 8, JavaScript, HTML, CSS

Tools/Frameworks: Spring, Spring Boot, Spring MVC, Hibernate, Microservices, GraphQL

Databases: MySQL, Oracle, MongoDB, H2

General: Data Structures, Algorithms, Object-Oriented Programming (OOP) with Java, RESTful APIs, Docker

Soft Skills: Analytical Thinking, Team Collaboration, Time Management, Adaptability

Others: GitHub, Git, Linux, ChatGPT

EDUCATION

Mechanical Engineering, Rajasthan Technical University, Kota

2015 – 2019

Higher Secondary, Arihant Vidhya Peeth Sen. Sec. School

2015
